

An underwater photograph of a sunset. The sun is a bright, glowing orb at the top center, casting a warm orange and yellow light across the water. The water is a deep blue, with ripples and light rays visible. A large, semi-circular pattern of white dots, resembling a halftone or dot matrix, is overlaid on the image, centered around the sun and fading out towards the edges.

LifeWave-X39 and Beyond

Live Well • Live Long • Live Young

What Is It?

LifeWave X39

X39 Naturally increases your energy and vitality while promoting healing from within.

X39 is a small, stick-on phototherapy patch that works with the power of your body's own infrared light.

X39 is a unique, patented technology designed to increase energy flow throughout your body for renewed vitality and wellness. There is nothing else like this available anywhere in the world.

The X39 patch is clinically proven to significantly increase GHK-Cu copper peptide concentrations in your body which will, in turn, activate your stem cells to proliferate like they did in your 20's, without mutations. X39 is FDA approved as a General Wellness Product.

How It Works

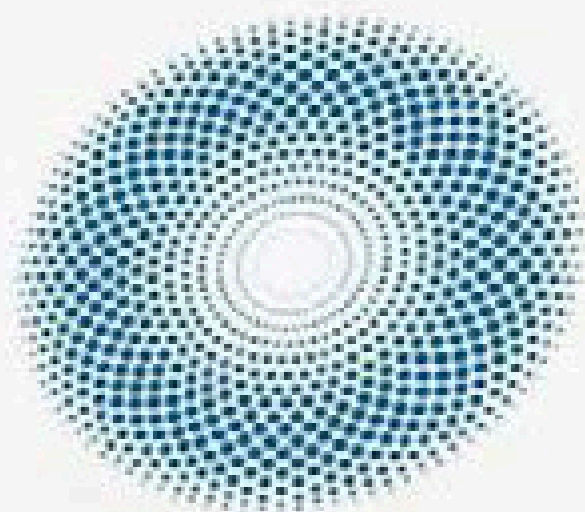

LifeWave X39 – How It Works

Our bodies emit infrared light that activates the patented, nanocrystal technology in the patch and then reflects specific wavelengths of light to stimulate the skin. This triggers production of different peptides and amino acids that cause important biochemical changes in our bodies. The X39 patch triggers direct production of the GHK–Cu copper peptide.

X39 activates the mitochondria in our cells to support healing and enhance the body's overall wellness.

GHK–Cu Copper Peptide: The Holy Grail of Healing

*Dr. Loren Pickart discovered GHK-Cu and spent decades researching its many biological effects.
His original thesis is entitled:*

"A TriPeptide From Human Serum"

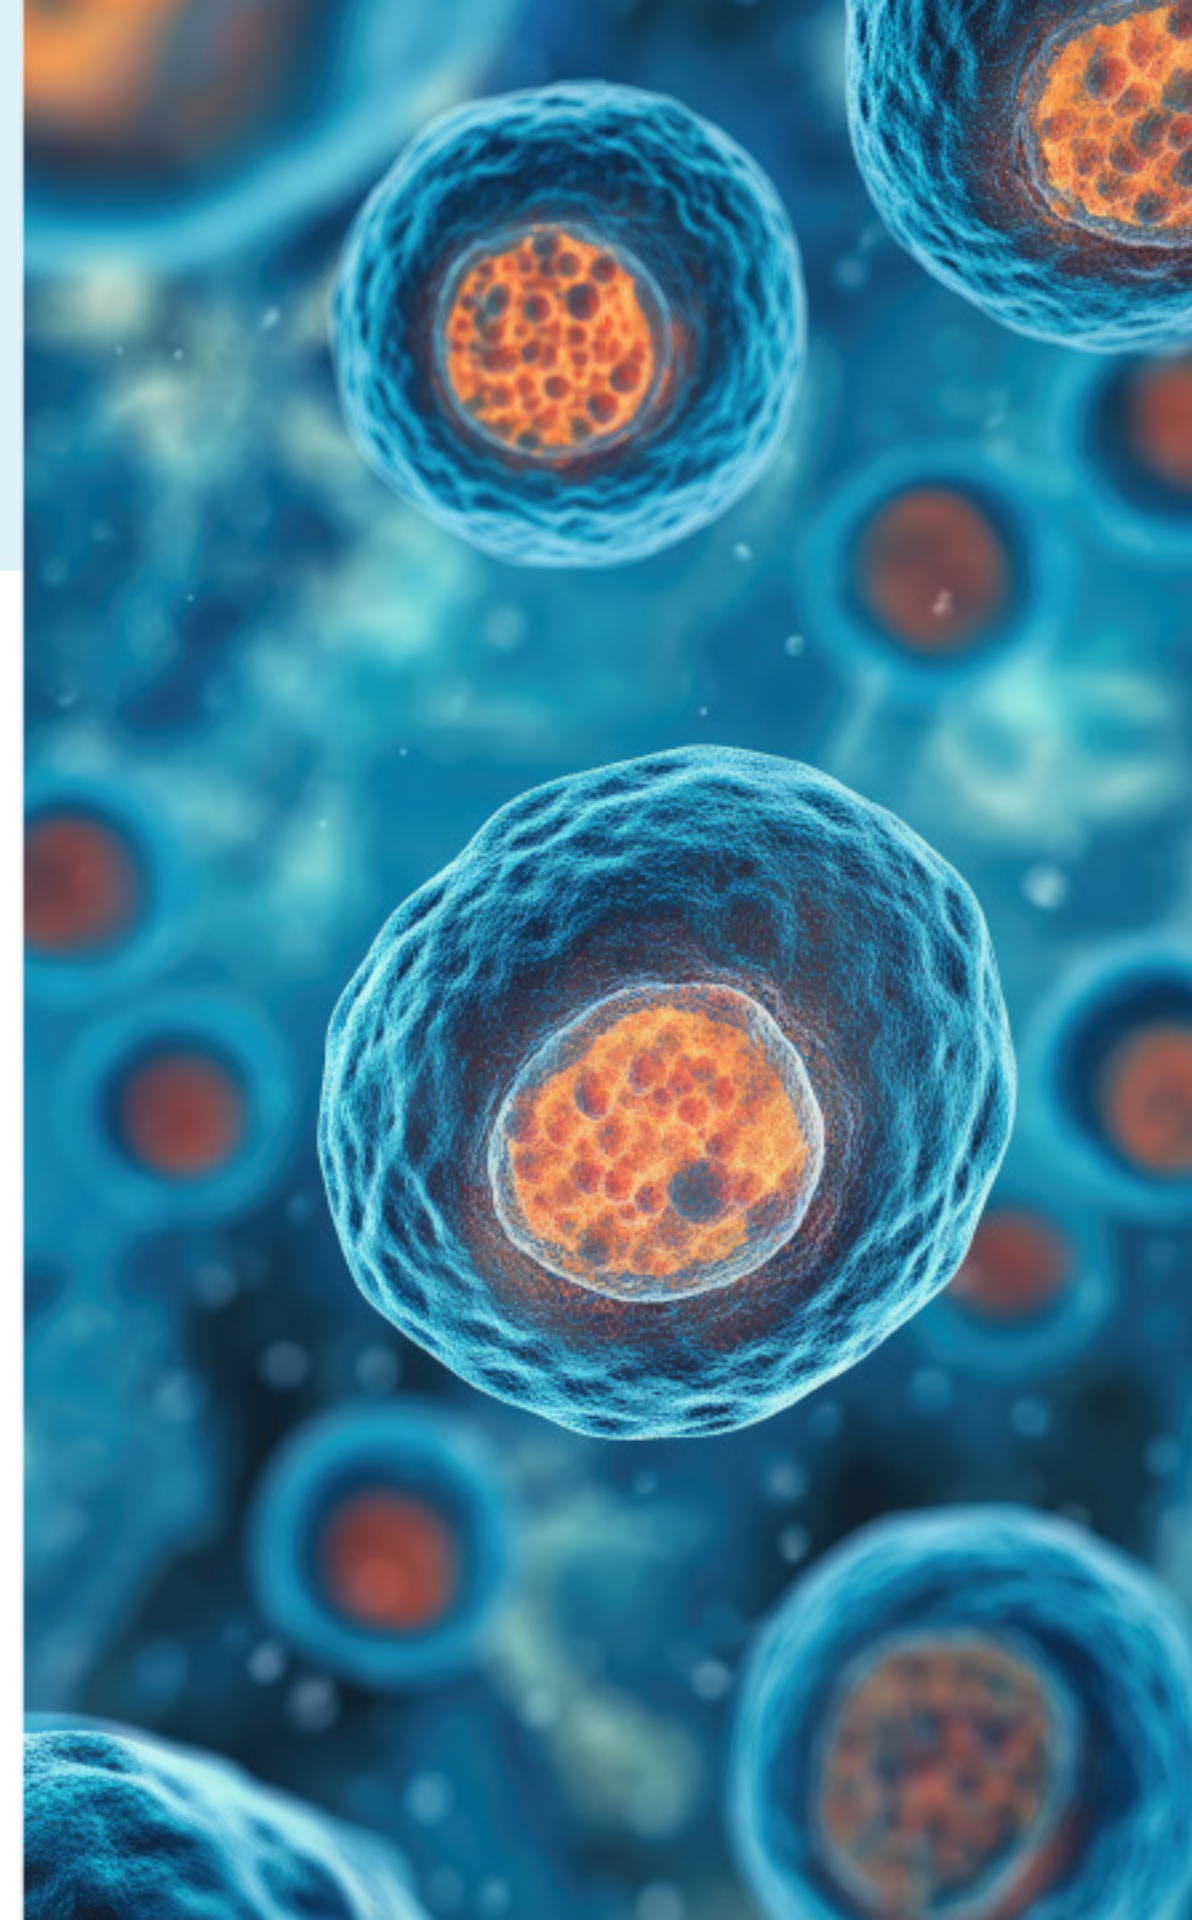

(June 1973)

GHK–Cu Copper Peptide activates Stem Cells to repair and regenerate where our bodies need it most.

As we age, we produce fewer and fewer young stem cells. Someone in their 60's has already lost 90% of their stem cells, making it more difficult to repair the body, heal from injury, and recover from activity. GHK–Cu helps our bodies produce new stem cells and also reset our stem cells to work like younger healthier cells again.

These newly activated younger stem cells are pluripotent, which means they are the only cells in our bodies that are changeable. They can morph into any cell type in our bodies that are needed for repair.

Within 24 hours of starting the X39 patch, elevated levels of GHK–Cu Copper Peptide resets 4,000 genes to a younger healthier stage turning our older cells young again.

How Do I Use My X39 Patch

X39 is easy to use and easy to integrate into your daily lifestyle.

Simply apply the patch to clean dry skin according to package guidelines and wear for 12 hours daily. Discard the patch and apply a new one the following day.

It is recommended that everyone start their health journey with the X39 and the Aeon patches for a month. Packages of X39 and Aeon include a 30 day supply.

Studies confirm that X39 should be worn for one month for each decade of your age to reach your youthful levels of GHK-Cu and healthy stem cell proliferation. From this point forward, the power of its regeneration is optimized.

What To Expect

What To Expect

Within 1 Week

4,000 GENES BEGIN TO RESET

Within 24 hours 3,000–4,000 genes begin to reset to a younger, healthier state. Increased mental clarity. Noticeable increase in energy.

Within 4 Weeks

STEM CELL PROLIFERATION

Stem cells will be attracted to your most critical issues first. You may not feel the effects immediately, such as when an internal organ is being repaired.

Within 6 Weeks

BRAIN BALANCING

A recent study has shown that after six weeks, the brain became more balanced as shown on QEEG brain mapping. These types of changes help calm an overactive brain leading to a decrease in multiple symptoms such as memory loss, depression, anxiety, sleep issues and more. ~ 2019 PSY-TEK Labs

Within 3 Months

COLLAGEN IS INCREASED

Your collagen is elevated initiating rapid repair of tissue in your body.

Within 6 Months

REDUCED HEART AGE

The cardiovascular portion of the organ function study demonstrates that after six weeks the cardiovascular systems of the participants acted eight weeks younger. So, for every day that you wear the patch, the cardiovascular system acts a day and a third younger. ~ The Center for Biofield Sciences

David Schmidt is the Founder and CEO of *LifeWave* and the Scientist behind its technology and products. He founded the company in 2004 to help people tap into their body's natural potential for healing and regeneration. He received his formal education in management information systems and biology at Pace University in Pleasantville, NY before beginning a career in regenerative science.

The patented LifeWave technology was the result of years of intensive research into methods to naturally increase energy and stamina via phototherapy. David holds over 130 issued patents with many more pending. More than 70 of those patents are in the field of regenerative science and technology. The X39 patch was patented and introduced to the world in 2018, providing a powerful new healing resource for millions of people.

LifeWave

LifeWave

Driven by innovation and proven by research, *LifeWave* is a company dedicated to honoring the light of life.

As David began thinking differently about light and the potential of phototherapy, he was inspired to explore the potential of the earth's oldest natural resource as a pathway for wellness and healing. Through non-invasive, wearable patches, he discovered a powerful way to tap into the body's natural energy to stimulate stem cell activity, improve recovery and support immunity.

Beyond helping people find a healthier way to live, *LifeWave* is committed to enhancing and extending human lives with health and wellness solutions designed to redefine the future of human potential.

After two decades, *LifeWave's* patented line of wearable health technology and accompanying products are sold in over 100 countries around the globe.
